TONNAGE MANY MILLIONS

\$500,000 Cuggenholm-Morgan Offer,
Value \$25,000,000.—Other Wash-
ington News.

WASHINGTON, Feb. 21.—The Senate committee on territories furnished an attraction in the way of the developments relative to Alaska coal lands which fairly entitled it to rival in interest the Hallinger-Pinchot investigation.

Manasse Stephen Birch, of the Cunningham-Morgan Alaska syndicate, was again the witness. He cashed off figures concerning the value of coal in the Cunningham claims and the Alaska coal and copper mines, that were quite calculated to cause heads of the members of the committee to spin.

"Placing the tonnage in the Cunningham mines at 50,000,000, he said the coal could probably be taken out so as to net a profit of \$25,000,000.

This statement, taken in connection with the fact that the syndicate had agreed to pay only \$250,000 for half of the property, aroused much interest.

Mr. Birch placed the probable output of the entire Bering River coal district, of which the Cunningham group is a part, at 500,000,000 tons, with a net value of \$200,000,000 and a gross value of \$600,000,000.

Taft Programme Sustained In Part.

Your administration measures are sure of passage at this session of Congress.

After conferences with Senators and Representatives, President Taft, is confident that the amendments to the Interstate Commerce law, the Postal Savings Bank bill, the anti-inflationary proposal and the Statehood bill will go through.

The situation now seems to portend that the Alaska legislative council bill, the Federal incorporation bill and several other measures desired by the President will either fall by the wayside or be laid upon the shelf for another session.

Federal Land to Be Thrown Open.
Examination of National Forest boundaries carried on by the forest officers last Summer and Fall upon the initiative of Secretary Wilson and under his direction, has resulted in new information, which will make it possible to restore 4,000,000 acres to the unreserved public domain along the edges of and within forests that is not best suited for forest purposes. This is to be done under a plan just approved by President Taft. The plan was formulated by Secretary Wilson and Secretary Ballinger jointly and submitted to the President.

Pinchet's Side of D'spute Near End.
The case for the prosecution in the Ballinger-Pinchot inquiry practically has been closed. When the committee adjourned Saturday until Friday, Mr. Brandeis stated there was some

corroborative evidence yet to be produced, and that Clifford P. Nebot probably would want to make a statement before he could announce his case was ended.

VETOES ENDURANCE TESTS

Secretary Directs That Homeseekers Be Registered in Orderly Way.
WASHINGTON, Feb. 22.—(The Billings Post.) That a record-breaking endurance test should be held with the approval of the government, Secretary Ballinger has adopted a novel plan for the allotment of 40-acre farms at Yuma, Ariz., in March.

The Secretary has ordered that a ball or a baseball park, large enough to accommodate all who desire to participate in the allotment, be engaged in Los Angeles for March 1st. To those assembled in the ball or park city a booklet on that day cards will be distributed. On these, the names, ages, height and weight, the address of each homeseeker must be written.

At any time between March 1 and March 19 the applicant may appear at the land office in Los Angeles and, upon being identified by the card, may make application for any of the 112 farms.

Millions in Sight.
LEWISTON, Idaho, Feb. 21.—(The Lewiston Post.) Reports received from Elk City confirm the first advices of the big gold strike made on the property of D. Morrow and Jack Harman, eight miles south of Newcastle. Mining experts have estimated the gold in sight as high as \$30,000,000 and a general stampede from the west is expected to occur.

The present winter has been an ideal one in many respects. There has been practically no sickness, it has been easy to get around and the only sufferers are those who did not provide feed for stock. If stock owners would always provide feed, it would be less expensive than the losses that occur during each year from lack of feed.

We know a family where there are four sons, all grown men. Three are sober and reliable. The fourth is a rake and a booze fighter. But he is jealous of his three brothers and claims he is never given-a square deal; that the other brothers have received more from their father than he did, when the facts are he has caused his father a great deal of worry and money. The fourth son is an illustration of the kind of men who make successful anarchists and socialists. They are trifling and poor managers of themselves, and are jealous of those people who are industrious and good managers.
